

Make the two levers as show, make sure that the two tabs are folded up before the two parts are glue together.

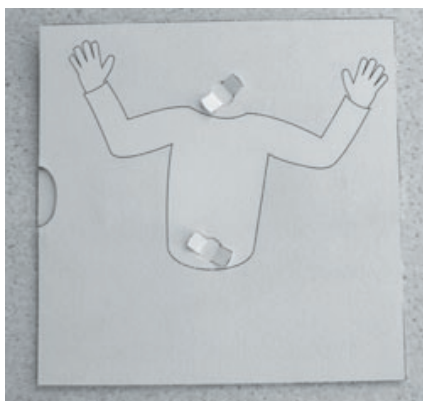

Glue the two sleeves to the back of the main card. Line up the left hand sleeve between the two small marks of the from to the card.

Fold the slide in half and glue it together. Fit it into place on the sleeves and glue the sleeves into place. Make sure that ther slide can slide.(!)

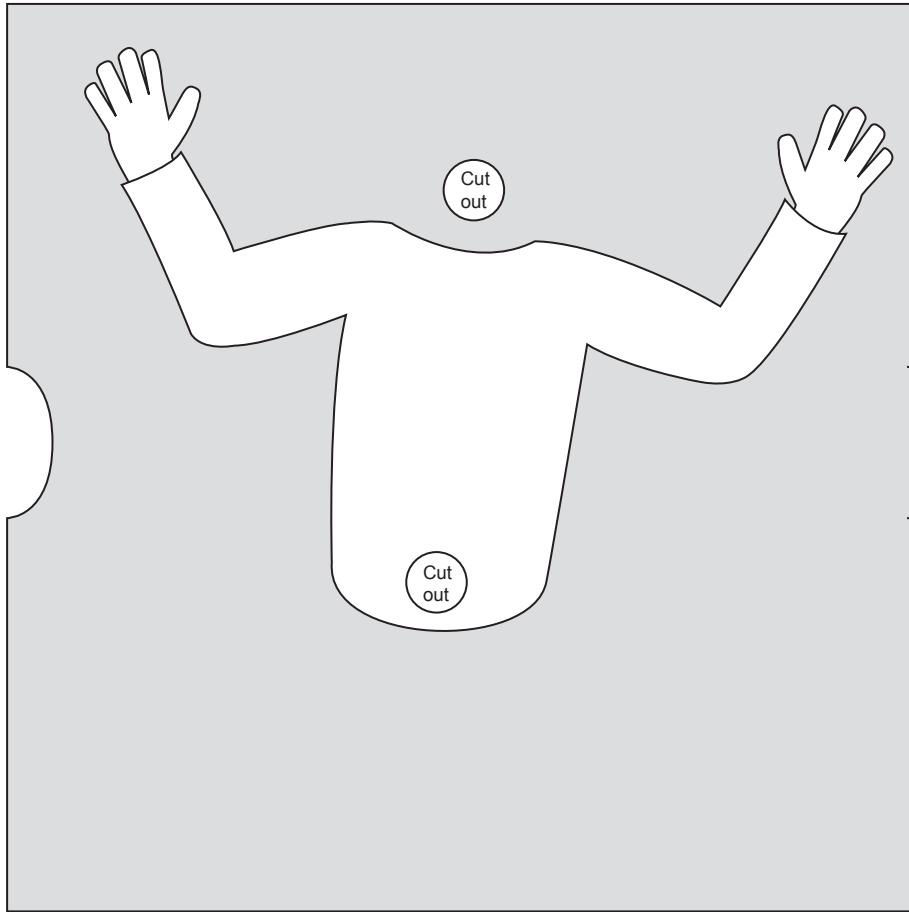

Fit the two levers through the hole in the side and through the holes in the card. Make sure that the top lever is on top.

Check the front of the card, the tabs should look like this.

With the slide pushed home, glue the head and the legs into position as shown.
Have fun by using pictures of friends to replace the head!

Lever
